IoT+m Partner Group

Respond to All Customer's Needs by Alliance

Activity of Partner Group

Provide cooperation to deal with customer requests associated with the IoT field that Shibaura Machine cannot handle by itself.

Member companies can expand their business scope by working together and sharing information.

Shibaura Machine has a strong partnership alliance with various IoT System and/or Device vendors. And we will respond to various requests at one stop.

Note: This group member is for Japanese companies only

IoT+m

SHIBAURA MACHINE will override boundaries between industries to boost productivity.

What we can do through our IoT as a comprehensive machinery manufacturer.

Customer Benefits by *IoT+m*

- Coordination with miscellaneous equipment to boost rate of operation
- Reducing downtime through preventive maintenance
- Operational monitoring to boost rate of operation
- Edge computer pre-installed with tools for visualization
- Advice from our experts on how to make use of the data for each type of machine

A platform for realizing *IoT+m*, that is "machiNet"
